Soft Skills: Executive Communication, Stakeholder Engagement, Agile Facilitation, Team Mentoring, Client Demonstrations, Knowledge Transfer, Problem Solving

Professional Experience

Cognizant Technology Solutions – Hyderabad, India

Feb 2023 – Present

Scrum Consultant | Product Consultant

- Served as Scrum Master and Product Owner across 4+ concurrent Agile delivery streams, leading cross-functional teams of 6–8 members and managing sprint governance, backlog prioritization, stakeholder alignment, and roadmap execution aligned with business OKRs.
- Facilitated Scrum of Scrums across cross-functional teams, proactively resolving multiple cross-functional team dependencies per quarter and sustaining over 90% sprint goal completion rate.
- Led SIT and UAT execution for Oracle P2P modules across 5 LATAM regions, delivering zero-defect go-live and successful Hypercare support for enterprise financial operations.
- Partnered with business stakeholders and Product Owners to refine product backlogs, prioritize high-value deliverables, and ensure alignment between technical execution and organizational goals.
- Designed Jira and Azure DevOps dashboards tracking sprint velocity, burndown metrics, defect leakage, and release readiness, reducing manual reporting effort by 30%.
- Drove continuous improvement initiatives through retrospective action planning, reducing sprint spillover and improving delivery predictability across multiple release cycles.
- Led Root Cause Analysis (RCA) for critical month-end production issues, presenting remediation strategies and preventive controls to business and IT leadership teams.
- Authored Business Requirement Documents (BRDs) and Agile delivery artifacts to ensure traceability, audit compliance, and clarity of functional acceptance criteria.
- Delivered stakeholder-facing solution demonstrations and Proof of Concepts (POCs), accelerating executive buy-in and strengthening client confidence in proposed Agile solutions.
- Mentored teams on Scrum principles, Agile best practices, backlog readiness, and sprint discipline; facilitated knowledge transfer initiatives that improved Agile maturity and operational readiness across distributed delivery teams.

- Recognized as **Employee of the Month** for excellence in Agile delivery, stakeholder management, and client satisfaction outcomes.

Cognizant Technology Solutions – Kolkata, India

Aug 2019 – Dec 2020

Programmer Analyst (Developer)

- Supported Agile delivery and modernization of PEGA workflow applications across multiple sprint cycles, ensuring stable deployments and zero post-production defects.
- Collaborated with development and QA teams to execute unit and integration testing, improving delivery quality and release readiness.
- Drove requirement scoping discussions and sprint planning activities to support PEGA system enhancements, contributing to on-time delivery across 3 release cycles.
- Conducted client demonstrations and knowledge transfer sessions, accelerating onboarding efficiency and improving stakeholder engagement.
